**Special Unit Group GmbH** is run by top professionals in security, detection, flight and limousine service and diplomatic service (ERT/CPT). The goal of SUG is to offer complete security and detection on a global level aligned solutions in the various fields of security and detective agency, particularly in the area foreign security through the use of know-how and existing network.

All from one source! You will have only one contact to handle every one of your requests. Experience, speed, competence and reliability are some of our properties.

#### OUR RANGE OF SERVICES:

- licensed bodyguard/security company
- government-licensed professional detective agency
- international information-gathering services
- licensed limousine and pilot service
- professional, physical overseas security unit (SCIA Group – CPT/ERT at the highest level)
- member of a worldwide detection organization for international data collection and information sharing

# S SECURITY & CONSULTING

We can look back at many years of rich experience in security and bodyguard services at home and abroad. Experience, speed, and reliability are just some of the things that set us apart. We are available for our clients 24/7 on-call and through our alarm monitoring systems.

With our VIP service, we ensure that you arrive at your scheduled meetings on time while keeping you safe and making additional suggestion as you go about your work, all the while guaranteeing –that our services are running smoothly.

## OUR SPECIALIZED FIELDS IN THE DETAIL:

- developing security concepts and implementing them in high-risk countries
- training your employees for foreign assignments
- specially secured transfer of cash and valuables (EU & beyond)
- VIP Service (limousines & aircraft with multi-lingual security guards provided)
- physical property protection (alarm panel and alarm center 24/7)
- armed personnel protection at home & abroad

# PRIVATE INVESTIGATION

The activities of professional detectives are quite diverse and complex. They require knowledge of the law, experience and prudence. Our detectives are full-time professionals that handle the unpleasant but important tasks confidentially and reliably.

Our employees are government-certified and are licensed by the magistrate as private investigators or detective assistants.

## OUR INVESTIGATION ACTIVITIES

- reviewing and adapting your IT / telephone security (data security)
- observation and evidence collection
- producing logs for use as evidence in court
- tenant data collection
- locating debtors and missing persons
- preventing stalkers
- security analysis of your business activities

# SPECIAL SERVICE

In complex systems, it is impossible to completely eliminate risk.

As an innovative security company, however, we make every effort with our special, technical equipment, our international network of professionals and years of experience and expertise to ward off these risks as much as possible.

## THE SPECIAL ALL-ROUND PACKAGE

- international GPS alarm systems with ERT alarm activation
- mobile, flexible CCTV solutions
- professional, individual air systems (drones) to inspect pipelines (oil and gas industry)
- fastest, most effective fog systems for burglary & robbery prevention
- high-security vault in Vienna with 365 days of direct customer access
- verification, counting and banding of larger balances of cash transports in multiple currencies
